2. The services we are authorised to provide to you.
3. How will the advice you receive be suitable to your financial circumstances.
4. The information we must give you in relation to our financial services.

It is intended that this Financial Services Guide should assist you in determining whether to use any of the services described in this document.

Not Independent

We are required by law to advise you, that because we can accept a commission for an insurance policy, we are not allowed to state we are "independent", "impartial", or "unbiased". We choose to accept payments from insurers, to help you pay for our advice. These payments are all paid at equal rates and will be disclosed to you in your advice document. If you would prefer to pay us a fee directly, we are happy to arrange this for you.

We do not receive any payments, that you will not know about. We choose not to own any products and seek to identify what we believe to be the most suitable solution for your needs.

3. How will the advice be suitable to your financial circumstances.

Before our advisors can accurately assess and recommend an appropriate strategy that reflects your wishes, we will require you to provide us with details of your current financial circumstances, objectives, and the financial outcomes you expect to achieve over certain timeframes. You have the right not to divulge this information to us, if you do not wish to do so, but this can mean the advice you receive may not be totally appropriate for you. In that instance, your advisor is required to warn you about the possible consequences of making financial decisions, based on recommendations made, using limited details of your financial circumstances. You should read these warnings carefully.

We will seek to ensure you fully understand the details of the advice provided and that you undertake it freely.

Risks of the recommended strategies

Your advisor will seek to explain to you any significant risks, involved in the strategies recommended to you, that they are aware of.

We will only implement the purchase or sale of these products, based on your instructions, however you will be responsible for any consequences of these transactions, as a result of the decision you have made. Your advisor will inform you of any costs involved in implementing/administering your instructions. We will usually require written instructions from you before implementing the transaction.

4. The information we must give you in relation to our financial services.

Financial Services Guide

This document will be provided to you at the earliest opportunity.

Statement of Advice

When we provide you with personal financial planning advice, you will receive a written Statement of Advice (SOA) that considers your objectives, financial situation and needs. The SOA will contain the advice, the basis on which it is given, the steps that need to be taken to implement that advice and the costs relating to our advice, including its implementation and annual management and review services to be provided.

Record of Advice

A Record of Advice (ROA) may be used if we provide further advice to you, that is related to the advice we provided to you in a previous SOA, and your personal circumstances have not significantly changed. The ROA will be added to your file, and you may request a copy of the record of that further advice at any time.

Product Disclosure Statement

Where we make a recommendation to acquire a particular financial product (other than securities where they are generally not available), we must also provide you with a Product Disclosure Statement, containing information about the product, which will enable you to make an informed decision in relation to the acquisition of that product.

5. How we are remunerated.

We receive fees for our professional services and/or can receive remuneration from the issuers of the products we recommend. Our advisors may only recommend products that have been researched and approved by the licensee.

Initial Consultation

Our first meeting is usually \$330. This enables you to meet with your advisor to ensure you are comfortable with them, and our firm. It also allows you to discuss your circumstances in detail to determine if the services we offer are appropriate for you. Any fees for professional services will be discussed, disclosed, and agreed to, by you and us, before we proceed. After agreement is reached, and if you freely indicate you wish to proceed, we will provide written detail of the scope of work to be undertaken, and outline all fees that are applicable, then gain your agreement, before proceeding.

Preparation of your detailed financial plan - Statement of Advice (SOA)

When taking on a new client and providing detailed financial planning advice, we are legally obliged to prepare a Statement of Advice (SOA). SOA's vary and depending on the scope and complexity of the work involved, and our fee for preparation of your financial plan (SOA) usually starts at approximately \$3,300. Your requirements, and all costs will be discussed with you before any fees are incurred, to enable you to freely consider whether this represents value for you. If we do not believe we can deliver value, we will advise you not to proceed with us.

Fees for Service (This applies only if a detailed SOA is not required)

As an alternative to a complete SOA, a fee for service may be payable for the provision of the following services:

- collection and analysis of your personal and financial situation
- consideration and investigation of financial planning strategies and financial products

The fee for service can be calculated either as a flat fee amount, or via an hourly rate for the time your advisor takes to provide the professional services required. These fees will again be discussed, disclosed and agreed to before any financial commitment is required from you or any work begins.

Investment Implementation Fees

This can be a flat dollar amount, or a percentage fee calculated on the amount you invest. This usually begins at \$2,200 or calculated at 1.10% (on larger amounts) but could be up to 4.40% (on smaller amounts or regular contributions) and will be payable for the professional implementation and establishment of the recommended investments.

Review Fees

Investments and your strategies must be reviewed regularly to ensure they remain appropriate for you. Depending on the level of service required, a service fee of between 0.4% and 2.2% pa of your account balance, will be payable.

Alternatively, a flat dollar amount, adjusted annually, will be paid by you, or deducted from your investments and this is known as a service fee.

These professional fees allow us to provide our services to you throughout the relevant period and include advice, reviews and administration. It also covers our time and technical expertise, our research, and other costs we incur in relation to advising you on and managing your investments and strategies.

Insurance Remuneration

Advice Fee	Our minimum fee for insurance advice is \$2,200 but often this is covered by payments received from the insurer by way of an upfront payment.
Upfront	A fee for insurance reviews and implementation may be charged but this will be discussed with you prior to work commencing. We may elect to receive commissions as an alternative and this can be amounts up to 66% of the premium you pay for your cover in the first year only.
Annual Service	This can be a flat fee agreed with you or we may be paid a commission. The commission received is usually 22% but could be up to 27.5% of the premium you pay them each year.
Cost Recovery	If you cancel your policy within the first two years, the insurer will recover the upfront payment from us, and we reserve the right to recover this lost revenue from you. Details of this will be discussed and agreed with you before work commences.

Brokerage – Direct shares

We may charge a fee for direct share execution and services, and this will be disclosed in the Statement of Advice. In addition to SOA and initial advice fees, share portfolio reviews or transactions are charged at a rate of up to 1.10% of the portfolio value, but may reduce as the size of the portfolio increases. For share transactions, a minimum fee of \$88 (inc.GST) applies.

Fee Examples

Example 1.

If you invest \$10,000 and an up-front cost of 2.20% is payable, Plan 2 Pty Ltd will receive an up-front fee of \$220 including GST. This may be paid from your investment or by your product provider and is deducted from your investment. If you retain the \$10,000 investment, and a service and review fee of 1.10%pa is payable, Plan 2 Pty Ltd will receive \$110pa, which is paid by the product or fund manager and is deducted from your investment.

Example 2.

If you take out insurance cover with an annual premium of \$2,000 and the advisor selects an up-front commission payment, which may be up to 66%, Plan 2 Pty Ltd. will receive an up-front payment of \$1,320. If you take out an insurance policy and we elect to receive a level payment structure, Plan 2 Pty Ltd would usually receive 22% of the annual premium payable each year. Therefore, if you paid \$2,000 annual premium, Plan 2 Pty Ltd could receive up to \$440 per annum from the insurer. This is not an additional cost to you.
